

LONE WORKER MONITORING

It makes good business sense to be concerned about the safety of your greatest assets, your employees.

KEY FEATURES

- 24/7/365 live-agent monitoring and support
- Automated, live-agent and app-based check-in options
- Individualized escalation procedures
- Compatible with third-party GPS devices
- Online client portal for advanced, real-time reporting

AGENT-ASSISTED WORKING ALONE MONITORING

With our 24/7 lone worker monitoring solution, your team is covered by real people in real-time, striking a balance between your employee's safety and managing risk.

I.M. OK LONE WORKER MOBILE SAFETY APP

Functioning as an all-in-one lone worker solution, the I.M. OK Lone Worker app turns smartphones into employee safety devices, allowing you to protect employees wherever they are.

AGENT-ASSISTED JOURNEY MANAGEMENT

Help your staff travel with confidence. Using our agent-assisted journey management solution. It reduces risk, ensuring your employees arrive at their destination without incident.

THIRD-PARTY LONE WORKER DEVICES

Our highly skilled agents are dedicated and trained to keep your employees safe, regardless of the third-party monitoring software or technology utilized.
