

CASE STUDY

OIL AND GAS PRODUCERS

We understand the energy sector's top priorities and specialize in assisting producers in increasing productivity while protecting employees, residents, and the environment.

→ The Case

Supporting a mid-sized oil and gas producer, our team specializes in optimizing performance, ensuring compliance and enhancing lone worker safety. By swiftly addressing public concerns, mitigating risks to employees, and streamlining operational efficiencies, we have become a crucial asset for many producers across Canada.

→ The Challenge

One challenge in the oil and gas industry is managing the safety of lone workers, in addition to monitoring critical processes and responding to unexpected incidents. This is where Intercon Messaging steps in as a key player and leader, providing comprehensive solutions that ensure that any production issues in the field or concerns from stakeholders are addressed promptly, minimizing potential losses, addressing public concerns, and reducing downtime.

Service Features

24/7 answering services, including alarm monitoring, lone worker monitoring, and emergency dispatch.

Call Types

Emergency calls related to releases, odours, as well as landowner and public concerns.

Alarm notifications related to production processes and infrastructure.

Safety alert notifications related to lone worker monitoring and journey management.

→ The Solution

For over 25 years, our customized alarm monitoring and working alone solutions have proven invaluable to Canadian oil and gas producers. We have the expertise and technology to establish customized protocols for handling public complaints, lone worker safety, and alarm monitoring alerts. Whether it's determining the appropriate response based on time of day, region or specific parameters, we ensure that your protocols and instructions are followed.

With Intercon Messaging, you can rest assured that your team is fully informed about any emerging issues and that prompt action will be taken to address them. Together, we can optimize your operational efficiencies and prioritize the safety of your employees.

Need a Solution Like This? Lets Connect!
